

## PRESS RELEASE

# Aon Switzerland and GLOBAZ enter a strategic cooperation around a 2<sup>nd</sup> Pillar IT solution

**NEUCHÂTEL, 2 December 2022** – [Aon plc](#) (NYSE: AON), a leading global professional services firm, and GLOBAZ SA, a leading 1st pillar software provider, announced they will enter into a strategic cooperation around a 2<sup>nd</sup> pillar IT solution. Aon Switzerland is handing over MULTI-Pension – its 2nd-pillar IT solution – to GLOBAZ. This cooperation, which takes effect on 1 January 2023, reflects the major strategic goal of the two entities to enhance and develop 1st and 2nd pillar management solutions designed to provide an overall overview of pension provisions to the insured.

For Aon, a global leader for risk management and wealth solutions for businesses, this step enhances its range of digital services as part of its pension fund management operations. In this perspective, Aon and GLOBAZ will pool their competencies in order to energise digital services and, especially, MULTI-Pension, the 2nd pillar software solution, for the benefit of pension funds, the insured and companies in the Swiss pension market.

The agreement leverages the expertise of the Swiss IT company GLOBAZ, a leader in 1st pillar software development, to help develop a 2nd pillar business and eventually create a national competence center for pension solutions. GLOBAZ is already involved in several national initiatives to design future integrated services in the field of social security and to facilitate people's access to information about their pensions and retirement savings, enabling them to plan their own financial situation at retirement.

Aon is handing over its proprietary tool developed by its teams to GLOBAZ, while keeping part of the team of specialists in-house to serve its clients and to bring the technical and actuarial know-how of the 2nd pillar to GLOBAZ. This collaboration represents a significant investment of both firms in order to give a new dimension to a tool that is already well-recognized in the pension market.

Pierre Brunel, CEO of Aon Switzerland, says: "We look forward to working with GLOBAZ, as this is a natural evolution of our offering to help clients make better decisions in support of their workforce's retirement goals. Thanks to this collaborative arrangement, the MULTI-Pension management tool has the best of both worlds – Aon's pension specialists and GLOBAZ's IT specialists – ensuring our clients a state-of-the-art tool. The MULTI-Pension solution, already well-known for its reliability and extensive functionalities essential to the effective management of the complexities of the Swiss pension system, will be enhanced to further help our clients."

Nicolas Thévoz, CEO of GLOBAZ, remarks: "The two companies are a great fit. The collaboration between Aon and GLOBAZ will enable us to develop converging innovative 1st and 2nd pillar solutions to better meet the needs of pension funds, employers and the insured."
